Advances in Safety Pharmacology and Toxicity Testing in Drug Discovery

Dr. Radha Rangarajan, B.S, PhD,

Director, Central Drug Research Institute (CDRI), India

Speaker profile:

Dr. Radha Rangarajan has over 20 years of experience in translational research and antimicrobial resistance (AMR). She previously worked at Dr. Reddy's Laboratories, co-founded Vitas Pharma, and served as Chief Technology Officer at HealthCube.

Her contributions have earned her awards like Biotech Startup of the Year (2021), FICCI's Award of Excellence for Women in R&D (2019) and the Discovery Award from the UK Longitude Prize Committee (2016). She serves on the Board of Governors of the Tres Cantos Open Lab Foundation, UK, and contributes to numerous scientific and innovation committees in India and globally.

Dr. Rangarajan holds a B.S. from Stanford University, a Ph.D. from Rockefeller University, and completed her postdoctoral fellowship at Harvard.
