

INDIAN BOARD OF TOXICOLOGIC PATHOLOGY (IBTP)

Curriculum for the Board Certification:

1. Gross pathology, normal histology, non-proliferative and proliferative histopathological changes including age-related changes and neoplasia in all the different organs/organ systems in the common species of laboratory animals especially rats and mice.
2. Euthanasia, necropsy and tissue collection techniques.
3. Correlation of gross, organ weights and histopathological changes.
4. Gross and histological differences between different species, differences in histology and histopathology of the sexes of different species.
5. Clinical chemistry, hematology, coagulation parameters and urinalysis and correlation to histopathology.
6. Principles of toxicological testing for preclinical safety assessment studies, design of experiments, collection of data, regulatory guidelines.
7. Current up-to-date terminology as recommended by organizations like the STP and GoReni.
8. Theoretical basis of pathological changes, mechanism of toxicopathology.
9. Interpretation of data, practical applications of knowledge, reporting of findings.
10. A knowledge of common artifacts, postmortem changes and pitfalls encountered by Pathologists.
11. Basic knowledge of histotechniques (including special fixatives, special staining etc.) and its application to regulatory toxicology studies.
12. Staining and histochemistry, ultrastructural pathology, immunohistochemistry, molecular/immunological diagnostic tools (e.g., Basic Toxicogenomics/ proteomics).
13. Common species of laboratory animals : rats, mice, guinea pigs, rabbits, dogs, non-human primates.
14. Pathology and pathology techniques in reproductive toxicity studies (vaginal smears, foetal developmental markers, studies on sperms and ovaries, foetal visceral & skeletal examinations for developmental malformations, fixation / staining techniques).
15. Good laboratory practice in toxicological pathology and peer review system.
16. Biomarkers in toxicological pathology.

INDIAN BOARD OF TOXICOLOGIC PATHOLOGY (IBTP)

Organs/organ systems

1. Oral cavity, Esophagus and Stomach
2. Salivary glands
3. Small and large intestine
4. Peritoneum, Mesentery and abdominal cavity
5. Hepato-biliary system including gall bladder
6. Endocrine system
7. Urinary system
8. Central and peripheral nervous system
9. Reproductive system
10. Respiratory system
11. Lymphoid and vascular system
12. Eye, bone and skin

11. Pathology of Tumours – Laboratory Animals Vol 1, 2nd Edn. – Tumours of Rats Eds. V. S. Turusov and U. Mohr, 1990, IARC Scientific, Lyon, France.
12. Pathology of Tumours – Laboratory Animals Vol 2, 2nd Edn. – Tumours of Mouse Eds. V. S. Turusov and U. Mohr, 1994, IARC Scientific Publication No – 111 Lyon, France.
13. Animal Clinical Chemistry. A primer for Toxicologists. Ed Evans 2009
14. Standardized System of Nomenclature and Diagnostic Criteria (SSNDC) Guides
15. GoReni guide
16. Animal models in toxicology / edited by Shayne C. Gad. -- 2nd ed. 2007
17. Pathology of laboratory rodents and rabbits / Dean H. Percy Third edition, 2007

INDIAN BOARD OF TOXICOLOGIC PATHOLOGY (IBTP)

Examination pattern:

1. One day examination: One theory examination and two practicals.
2. Type of questions to be all objective--Multiple choice and true or false. Theory paper to consist of Histopathology related to toxicology and also question component from clinical chemistry, hematology, gross pathology --all related to toxicopathology. Total of 120 questions--Total marks for 60 – duration 2 hours.
3. Practicals I: Microscopic examination and diagnosis of 8 common slides for all candidates and separate set of 7 slides for each candidate. Each slide carry 4 marks and time for each slide 4 min — Total marks for 60 – duration 2 hours.
4. Practicals II - Projection of 30 gross and microscopic images – time for each image is 4 minutes— Total marks for 60 – duration 2 hours.
5. Candidates must pass all the 3 sections to become eligible for diplomate status of IBTP
6. Evaluation and announcement of the results within 30 days following examination

Fee structure:

Application fee	Rs.1,000/= To be paid at the time of submission of application
Examination fee	Rs.9,000/= To be paid after acceptance of application
